

OTOO ALBERT JUNIOR

059-6559539 / 026-0144609 | otooalbert463k@gmail.com

Profile

Detail-oriented Information Technology graduate with hands-on experience in IT Support, system troubleshooting, data management, and web-based application development. Proven ability to resolve technical issues, improve operational efficiency, and develop secure internal systems that enhance service delivery.

Experience

Sazian Specialist Clinic

Front Desk Representative | October 2025 – January 2026

- Managed front desk operations, improving client flow and reducing waiting time through structured scheduling.
- Maintained organized digital and physical records, enhancing information retrieval efficiency.
- Resolved client inquiries promptly, contributing to improved service experience and patient satisfaction.
- Provided administrative support that ensured smooth daily operations.

Cocoa Health and Extension Division (Information Systems Department)

National Service Personnel | November 2024 – October 2025

- Delivered first-level IT support across departments, reducing system downtime and improving response time.
- Installed and maintained software applications, ensuring stable system performance.
- Assisted in network troubleshooting, improving connectivity reliability.
- Developed an internal E-Voting System that streamlined decision-making and eliminated manual ballot processes.
- Supported data management activities, improving record accuracy and accessibility.

Yakus Construction and Roofing

Internship | August 2023 – September 2023

- Provided day-to-day technical assistance, minimizing minor system disruptions and boosting staff productivity.
- Assisted in digitizing and organizing documentation, improving record management efficiency.
- Supported data processing and invoice tracking, contributing to accurate internal reporting.

Education

Ghana Communication Technology University (2019 – 2021)

Diploma in Information Technology

Ghana Communication Technology University (2023 – 2024)

BSc. Information Technology

Skills

- IT support & Help Desk: System Troubleshooting, hardware & software installation, system configuration.
- Database & Database Management: MySQL
- Web Development: HTML, CSS, JavaScript, React, PHP
- Network & Access Management: Network troubleshooting, connectivity reliability, role-based access control.
- Soft Skills: Analytical problem-solving, strong communication, and cross-departmental collaboration.

Projects

Laundry Management System (Final Year Project) – Designed and developed a web-based system using PHP, MySQL, HTML, CSS, and JavaScript to manage customer orders, payments, and service records. Improved efficiency by automating manual processes and reducing tracking errors.

E-Voting System – Built a secure, role-based voting platform with PHP and MySQL, enabling user authentication, ballot creation, and real-time results visualization. Strengthened system security through validation and access control.
